

GILMAN
GUITARS

Experience
the difference

**BEST
IN THEIR
CLASS**

GILMAN GUITARS

Two generations of traditional guitar making experience and expertise form the cornerstone of each and every Gilman guitar. Modern manufacturing technology combined with precise hand crafting to exacting specifications and tolerances guarantee unrivalled quality and the superb tonal performance that is Gilman.

THE GILMAN STORY

The Gilman Guitar Range is the culmination of more than two years intensive investigation to determine the best possible manufacturing facility for our requirements and to ultimately develop an all new guitar range especially for the Australian market.

The resulting finely crafted and finished instruments are beautifully appointed, yet understated, and offer superb tone, appeal and playability at affordable price points.

Released in early 2018, this great range of guitars has been widely acclaimed as the "Best In Their Class" for construction, appearance, tone and playability. Gilman Guitars have achieved very significant market penetration and acceptance in a very short time.
